

THE STONE COLLECTION
BASALT: STOCKED FINISHES

Created from hardened molten lava, Basalt is one of the densest stones on earth. The hardness, uniformity of color and endless finish possibilities make Basalt suitable for interior or exterior applications, including cladding and water features.

Stocked in 2 color tones: **Black**, which has a deep color, with an extremely low absorption and **Grey**, which is lighter and livelier with subtle movement. Both tones are stocked FOB Los Angeles warehouse.

Non-stocked finishes and sizes are subject to 500 square foot minimum and 8-10 weeks lead time.

Sizes are approximate. Please expect some color variation.

STOCKED BLACK BASALT SLABS:

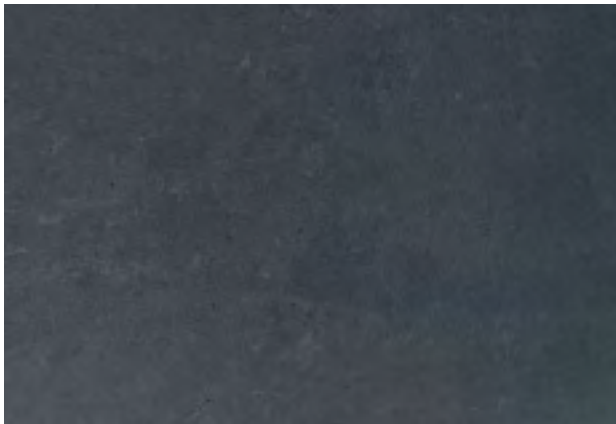

HONED: 31" W x 78" L x 3/4" or 1-1/4" thickness

ANTIQUE FLAMED: 31"W x 78" L x 3/4" or 1-1/4" thick
